ABOUT

Passionate and detail-oriented aspiring software developer with a strong foundation in HTML, CSS, JavaScript, and modern frameworks like React. Eager to apply academic knowledge and personal project experience to build intuitive and responsive user interfaces. A quick learner dedicated to writing clean code and collaborating within a dynamic team to solve real-world problems

EDUCATION

2023 - 2028 Coimbatore Institute Of Technology	**M.sc.Software Systems(Integrated)**
	I am currently in my third year of a five-year integrated M.Sc. Software Systems program at the Department of Computing, Coimbatore Institute of Technology.

SKILL SET

LANGUAGES	C, C++, Python, Javascript, React, Angular, HTML, CSS, nodejs
BACK-END	Mysql
PLATFORM	Windows, Linux
TOOLS	ALP(8086)

ACADEMIC PROJECTS

- **MCQ Management system** a platform developed using **html, css** and **mysql**, both the students and faculties can attend quiz and create quiz for the students respectively.

- **Encoding and decoding** using emu8086, just similar to whatsapp for **end to end** data transfer between users, without any external API and other platforms.

- **Stock forecasting system** , a python application to bring a new evolution to the trading world to analyze the trade history with varied categories **without accessing internet.**

EXTRA- CURRICULAR ACHIEVEMENTS

Represented my district at the district level chess tournaments held across Tamilnadu.
